TS-105 Boiler Coat

Black and Aluminum

Some Like it Hot!

TS-105 Boiler Coat allows you turn the heat all the way up. It's a heat resistant, ready mixed, silicone based coating that is heat resistant to 1200 degrees Fahrenheit! Is that hot enough for you?

A heat resistant silicone resin vehicle based coating specifically developed to meet today's demand for a superior heat resistant applications. Ideal for heat treating engine compartments, engine blocks, exhaust manifolds, barbecues, furnaces, boilers, exhaust stacks, grills, hoods, stoves, and other areas where a heat resistant highly durable protective finish is desired.

It adheres to almost anything, it's fast-drying, easy-to-apply and specially formulated to withstand high temperatures without losing its luster, discoloring or breaking down. Durability, performance and protection are outstanding with Boiler-Coat.

Excellent for use on any exterior or interior surface that is subject to intense heat sources. Dries to a matte finish. Complies with Federal Spec. TT-P-28.

PRODUCT FEATURES

- Outstanding Resistance To Chemicals, Fuel & Salt
- Superior Adhesion, One Coat Coverage
- Excellent Hardness & Durability
- Non-yellowing, UV Stable, Colorfast
- Excellent Abrasion & Mar Resistance
- Waterproofs, Seals, Protects, Inhibits Rust
- Easy Application, Low Maintenance
- Fast Drying, Cures Quickly
- High Solid, Low Odor Formula
- Self Leveling Formula
- Resists Chipping, Cracking & Peeling
- Allows Low Temperature Application
- Economical To Use
- Self Priming In Many Applications
- Acceptable for Indoor/Outdoor Use
- Wide Variety Of Application Possibilities
