TS-6990 Aquathane

Clear and Stock Colors

Aquathane

TS-6990 Aquathane is our answer to old school two component urethanes that all too often are quick to yellow, smelly and hard to work with. This next generation single stage urethane has a lot of people excited about its ease of use and the high

Be creative with Aquathane because it has an unusually wide variety of application possibilities. An exceptionally hard, non-yellowing aqueous coating that's even tough enough for professional sport floor applications! It is a highly versatile, waterborne, easy-to-apply complete finishing system acceptable for use on almost any surface.

Best news yet Aquathane is acceptable for interior or exterior applications. It is tough enough for commercial and institutional venues and excels in residential applications. This modified aromatic urethane is highly durable, impact and stain resistant. The solids content is higher than conventional nitrocellulose lacquers or oil-based stains, making film build and aesthetic appearance better than conventional floor finishing systems. The scuff and impact resistant formula provides superior clarity and gloss retention.

Designed as a high abrasion resistant coating for hardwood floors, kitchen cabinets, counter tops, coffee tables, fine wood furniture, table tops, clear wood trim varnish, etc. Available in satin and semi-gloss sheen levels. Available in a wide variety of colors plus clear.

PRODUCT FEATURES

- Good Resistance To Cleaners and Chemicals
- Superior Adhesion, One Coat Coverage
- Excellent Hardness & Durability
- Non-yellowing, UV Stable, Colorfast
- Excellent Abrasion & Mar Resistance
- Waterproofs, Seals, Protects, Inhibits Rust
- Easy Application, Low Maintenance
- Fast Drying, Cures Quickly
- Low VOC, Low Odor Formula
- Self Leveling Formula
- Resists Chipping, Cracking & Peeling
- Economical To Use
- Superior Gloss Retention
- Self Priming In Many Applications
- Resistant To Bacteria, Mold, Mildew and Fungus
- Wide Variety Of Application Possibilities
